

Pre-Medicine

Pre-Medicine Programs:

Pre-Medicine tracks are intended to provide a strong foundation for students pursuing medical school. They are designed to help students meet the prerequisites for medical school, prepare for the MCAT, and navigate the application process. These tracks can be paired with any major, though students often choose biology, chemistry, health sciences, or other fields with significant course overlap.

Kentucky Public Universities with Pre-Medicine Programs:

- Eastern Kentucky University
- Morehead State
- Murray State
- Northern Kentucky University
- University of Kentucky
- University of Louisville
- Western Kentucky University

Recommended AP Courses:

Pre-medicine students will be expected to have a strong foundation in math, science, and communication. The following AP courses are recommended for students interested in medical school, and will likely fulfill degree requirements:

- AP Biology
- AP Calculus AB
- AP Chemistry
- AP Physics 1
- AP Physics 2
- AP Psychology
- AP Statistics

Career Statistics:

- In Kentucky, physicians make **\$106.93 per hour**, on average
- Physician employment in Kentucky is projected to grow by **12%** between 2019 and 2029
